

KEY BENEFITS:

- ▶ Requires minimal IT support
- ▶ Saves hours of work duplicating information
- ▶ Eliminates data entry caused by manual data transfers
- ▶ Enables you to compare actuals data to budget without cutting and pasting
- ▶ Ensures complete data integrity

AUTOMATED

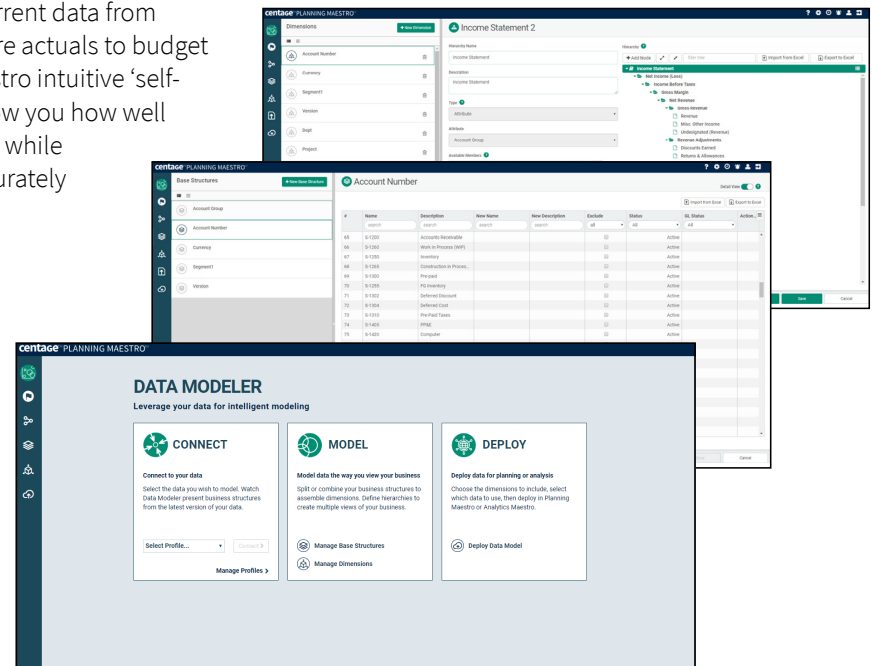

Centage integrates with QuickBooks to automate the secure exchange of financial information between your General Ledger and Planning Maestro. Connecting to your GL transaction data enables ongoing actuals vs. budget comparisons and accurate forecasts, while eliminating the potential for data entry errors and duplicated information.

EASY TO CONFIGURE

Driver-based budgets and plans become very easy to build and manipulate. Using current data from QuickBooks lets you easily compare actuals to budget as often as you like. Planning Maestro intuitive ‘self-serve’ reports and dashboards show you how well your business is performing today, while automated forecasts help you accurately predict future financial health.

QUICK TO DEPLOY

Centage’s data integrators are designed for fast, easy implementation. The system guides you through loading the essential data that describes your business – all based on real language prompts, wizards, preformatted templates and menus. No programming or formulas are necessary to upload data from QuickBooks for use in budgeting, planning, forecasting and reporting.

**CENTAGE'S INTEGRATION WITH QUICKBOOKS
ALLOWS YOU TO:**

- ▶ Eliminate the manual process to export accounts and trial balance to Excel for consolidation
- ▶ Import your chart of accounts and structures ensuring all your accounts are accurately reflected in Planning Maestro
- ▶ Do a quick and easy upload of account summary to compare to plan, budget, forecast or any scenario for variance analysis
- ▶ Import actual GL transactions and non-financial activity
