

**KEY BENEFITS:**

- ▶ Requires minimal IT support
- ▶ Saves hours of work duplicating information
- ▶ Eliminates data entry caused by manual data transfers
- ▶ Enables you to compare actuals data to budget without cutting and pasting
- ▶ Ensures complete data integrity

**AUTOMATED**

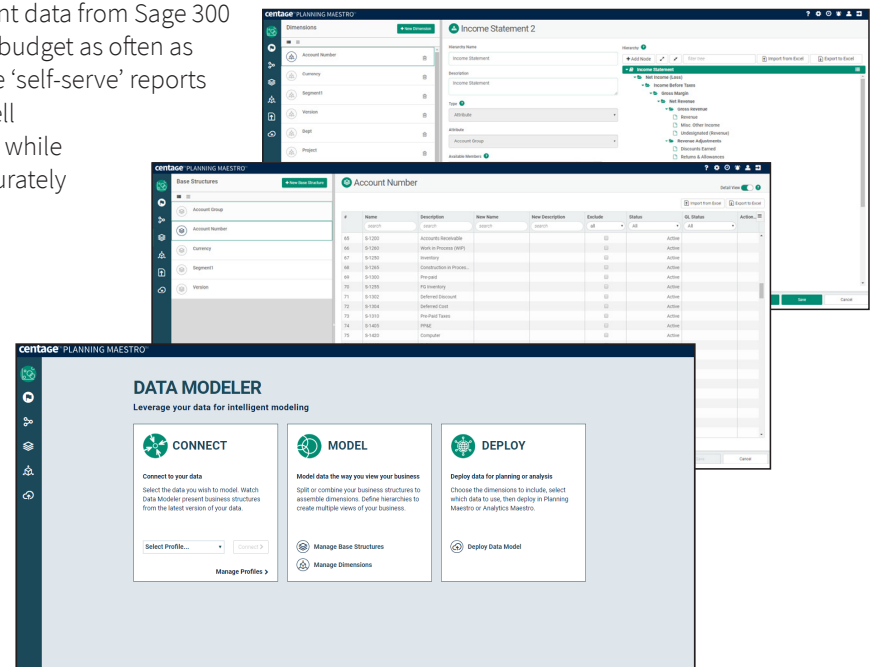

Centage integrates with Sage 300 to automate the secure exchange of financial information between your General Ledger and Planning Maestro. Connecting to your GL transaction data enables ongoing actuals vs. budget comparisons and accurate forecasts, while eliminating the potential for data entry errors and duplicated information.

**EASY TO CONFIGURE**

Driver-based budgets and plans become very easy to build and manipulate. Using current data from Sage 300 lets you easily compare actuals to budget as often as you like. Planning Maestro intuitive 'self-serve' reports and dashboards show you how well your business is performing today, while automated forecasts help you accurately predict future financial health.

**QUICK TO DEPLOY**

Centage's data integrations are designed for fast, easy implementation. The system guides you through loading the essential data that describes your business – all based on real language prompts, wizards, preformatted templates and menus. No programming or formulas are necessary to upload data from Sage 300 for use in budgeting, planning, forecasting and reporting.

**CENTAGE'S INTEGRATION WITH SAGE 300  
ALLOWS YOU TO:**

- ▶ Import your chart of accounts and structures ensuring all your accounts are accurately reflected in Planning Maestro
- ▶ Import actual GL transactions and non-financial activity enabling you to jump start your budgeting process
- ▶ Eliminate the manual process to export accounts and trial balance to Excel for consolidation
- ▶ Do a quick and easy upload of account summary to compare to plan, budget, forecast or any scenario for variance analysis
