

PLANNING MAESTRO

Planning Maestro is a cloud-native platform that delivers a competitive advantage through the ability to easily budget, forecast financial performance, analyze results and share critical information across the business.

Planning Maestro integration with NetSuite

No more manually exporting data from your NetSuite accounting system to perform budgeting, planning, and reporting. Planning Maestro® integrates seamlessly with NetSuite, saving valuable time and helping avoid data entry errors that can prove very costly.

Automated

Automate the secure exchange of financial information between your GL and Planning Maestro. Connecting to your GL transaction data enables ongoing actuals vs. budget comparisons and accurate forecasts, while eliminating the potential for data entry errors and duplicated information.

Easy to Configure

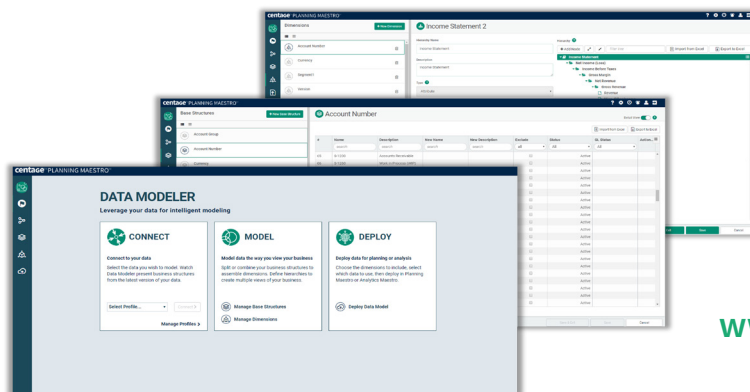

Build and manipulate driver-based budgets and plans easily using current data from NetSuite so you can compare actuals to budget as often as you like. Intuitive 'self-serve' reports and dashboards show you how your business is performing today, while automated forecasts help you accurately predict future financial health.

Quick to Deploy

Implement the integration quickly and easily with guides that lead you through loading essential data – all based on real language prompts, wizards, preformatted templates and menus. No programming or formulas necessary.

KEY BENEFITS

- ▶ Requires minimal IT support
- ▶ Saves hours of work duplicating information
- ▶ Eliminates data entry caused by manual data transfers
- ▶ Eliminates data entry caused by manual data transfers
- ▶ Enables you to compare actuals data to budget data without cutting and pasting
- ▶ Ensures complete data integrity

PLANNING MAESTRO

streamlines your entire planning process, delivering sophisticated financial intelligence that empowers you to make faster, more informed decisions, so you can react quickly to market changes, take intelligent risks and capitalize on new opportunities.

PLANNING
